- Taiwan is the name of an island off the SE coast of China. Together with the Pescadore islands it forms Taiwan Province. Colonized originally by the Chinese, the island was later taken over by the Portuguese who gave it the name of Formosa. After the Sino-Japanese War it was ceded to Japan and remained under Japanese administration 1895-1945. It was returned to Chinese control after World War II. Became the seat of the Chinese Nationalist government, the Republic of China, in 1949 when the Communist People's Republic of China established itself on mainland China. Works issued by the provincial government of Taiwan and all works about the province and the island are entered under Taiwan. Works issued by and about the Chinese Nationalist government, the Republic of China, are entered under China.
